Dear Mr. Weir,

We had a major conference here a week ago, and friends staying here, so that I wasn't able to spend much time on the Dean murder. However, I enclose a summary of what I see as the main points at the present time. If I were going to put a substantial amount of additional time and money into the case, I would probably try to find out what is in the Bosdan file, as he clearly had relevant European documents, which the Feds wanted. I don't even know how the case was disposed.

Of things in Jaffrey, I would be most interested in knowing more about the dugout--it was on the side of the hill, towards the east, up above the tack factory, still very impressive when I saw it as a boy. It seems strange that no one even seems to have taken photographs of it, or at least that none were published in any account of the murder. I don't even know if it is still there, or whether that section of Jaffrey has been invaded by housing.

I now have the clippings in chronological order, so it is beginning to be possible to get at things. It was a real stimulus meeting Nancy. I will be in touch.

best wishes,

*Dave Kelley*
